

SNO-WAY® 29VHD

Move it.

Maximum Snow Removal. Superior Cleaning. No Trails.

MAXIMUM SNOW MOVING CAPACITY

4.3 CUBIC YARDS	4.5 CUBIC YARDS	5.4 CUBIC YARDS
V-WING	V-WING AT 15° WITH 9" E-Z SWITCH WINGS	V-WING AT 30° WITH 9" E-Z SWITCH WINGS

The 29VHD is the top of the line in Vee Plow technology. The unique Ground Hugger blade design keeps the plow on the ground to clean more snow which is rather difficult for a V-plow. To enhance cleaning, Sno-Way invented the patented MaxADJUST™ Leveling System - which is a single adjusting arm blade leveling system. This simply allows the operator to adjust the center hinge for perfect plowing alignment and eliminate a snow trail. With the Down Pressure® Hydraulic System as standard equipment, this plow will clean better and cut 30% off of your plowing time.

While V-Plows are infamous for having obstacle tripping difficulty, the Sno-Way 29VHD V-Plow handles obstructions with ease utilizing a patented Shock Killer™ Trip Return System which reduces blade return shock to the truck and the driver. Add the optional E-Z Switch™ Wings and you have the professional plower's dream plow.

FEATURES

- » Patented MaxADJUST™ Leveling System
- » Patented Ground Hugger™ Blade Design
 - Keeps Plow on the Ground
- » Double Acting Wing Cylinders
 - Maximum Force Forward and Back
- » Tube Steel/Tab-Slot and Lock Construction
 - Engineered for Load Force Absorption
 - Engineered to Last
- » Pre-Drilled Top Blade Rail
 - Allows for E-Z Installation of E-Z Fit Deflector
- » Custom designed to accept the E-Z Switch™ Wings
- » Patented Shock Killer™ Trip Return System
 - Reduces Return Shock to Truck and Driver
- » Fast-Force Hydraulic System
- » EIS™ – Energy Interruption System
 - Down-time reduction
 - Corrosion elimination
 - Plug and play design
- » Down Pressure® Hydraulics System
 - Scrapes clean forward and back dragging
 - Increases snow-moving efficiency 30%
- » Triple -Coat Protection
 - Zinc Phosphate Wash
 - Automotive E-Coat Primer
 - Military Grade Powder Coat Finish

Sno-Way's Patented MaxADJUST™ Leveling System

This easily accessible system allow the user to make adjustments while standing in front of the plow instead of from underneath. This system allows for easy use on fleets that use more than one type of truck model because there is no plow frame disassembly necessary for proper fit to each truck.

The built-in mounting system for the E-Z Switch™ Wing System allows you to add accessory wing options that can more than DOUBLE your snow moving capabilities. Image shows the mounting system and 9" wings on the 29VHD Series.

Control your snow-moving machine with a touch of a button using Sno-Way's Wireless Pro Control™ or Sno-Way's Wired Pro Control II™
